DETAILED ACTION

1. Claims 1-2 are pending in the application.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Steve Cha on December 8th, 2005.

- In order to avoid a "Prior Art" rejection the claims have been amended as follows:
 - In Claim 1, line 5 **replace** ".....point where the samples that remain are equal to....." **with**
.....point where all the samples that remain, in a transfer block, are equal to.....
 - In Claim 2, line 4 **replace** ".....point where the samples that remain are equal to....." **with**
.....point where all the samples that remain, in a transfer block, are equal to.....

Allowable Subject Matter

3. Claims 1-2 are allowable over the prior art of record because the cited references do not contain the specified limitation of a data processing device comprising a bus system across which a transmitter circuit can transfer a series of a samples to a receiver circuit, characterized in that: the transmitter circuit is arranged for transmitting only a start of the series of samples which extends to the point where all the samples that remain, in a transfer block, are equal to a reference value and for transmitting an indication "end of transmission" after the last transmitted sample; the receiver circuit is arranged for placing reference values after the sample preceding the indication "end of transmission" so as to reconstitute the series of samples.
